

The ultimate 3" pencil pleat, this high quality tape is easy to use and produces outstanding results. Manufactured on the latest Swiss looms it incorporates features not available on any other tape. The principal characteristic of the tape is the distance between the pockets and their depth. Precisely engineered to give a fullness of 2.5 this tape creates luxurious pleats that will not spread or tilt when fully pleated.

▶ Pockets

Three rows of strong woven pockets give the option to hang the curtains below a pole or to hide a track. Pockets designed to hold the hook firmly and to almost eliminate pocket sag.

Draw Cords

Specially constructed polyester draw cords are used. The use of tubes to hold the cord creates strong, proud pleats with 2½ times fullness when the tape is fully gathered. The special cords help to hold the pleats in place if the tape is not fully pleated.

Make Up

The tape is available as 50m rolls and in 500m Layered Boxes

This high quality tape will compliment any curtains. The strong pockets and proud pleats are well suited to heavier fabrics and longer curtains but will create a beautiful pleat whenever it is used.

▶ *Three bulked draw cords will hold the pleats permanently in place.*

If you have any questions relating to the use or performance of curtain tapes please contact us.

▶ Platinum Ultimate High Quality Woven Pocket Pencil Pleat

BENEFITS
