

A family of single sew Roman Blind tapes offering economy, versatility and functionality. Using tapes to simplify the processes of making and cleaning the blinds and results in clean lines and a professional appearance. Each tape is designed to utilise a 4mm glass fibre rod although some will also accept a wooden dowel or aluminium rod where these are preferred.

Cord Guides

Each tape has either external pockets or button holes to guide the draw cords. Additional clips or rings may be attached if required.
