

A high quality 3" pencil pleat with five rows of woven pockets, this tape offers flexibility and quality, it is easy to use and produces excellent results.

Pockets

Five rows of strong woven pockets give more options to hang the curtains in exactly the right position. Use a single pocket for light weight fabrics or set the hook through two pockets for heavier fabrics.

Draw Cords

Specially constructed polyester draw cords are used. The use of tubes to hold the cord creates strong, proud pleats with 2.2 times fullness when the tape is fully gathered.

Make Up

The tape is available as 50m and 100m rolls and in 500m Layered Boxes

This tape will compliment light—medium weight curtains. The strong pockets and proud pleats are presented in the popular "D" pleat design so that all the pleat stands proud of the cords.

Three bulked draw cords will hold the pleats permanently in place.

If you have any questions relating to the use or performance of curtain tapes please contact us.
